

## Economy Hydraulic Fluids

Dura Flow™ Economy Hydraulic Fluids use high quality paraffin base stocks with a quality additive package that provides adequate anti-wear and extreme pressure (EP) protection in a hydraulic system. Dura Flow™ Economy Hydraulic Fluids also contain an anti-foaming agent that inhibits foaming from within the system. These fluids also offer excellent demulsibility from water.

Dura Flow™ Economy Hydraulic Fluids provide acceptable thermal and oxidation life where economy is a consideration. If extended service life or extremes in operating conditions are required, Dura Flow™ AW Hydraulic Fluids are recommended.

### Typical Properties:

Product: Dura Flow™ Economy Hydraulic Fluids				
Product Code				
ISO Viscosity	32	46	68	100
Kinematic Viscosity @ 100°C, cSt (ASTM D-445)	5.4	6.8	8.3	11.3
Kinematic Viscosity @ 40°C, cSt (ASTM D-445)	32.3	44.9	64.8	102.1
Viscosity Index (ASTM D-2270)	103	107	97	97
API Gravity (ASTM D-1298)	32.4	32.2	31.2	30.0
