First aid measures

General advice	No hazards which require special first aid measures.	
Eye contact	Flush eyes for 30 minutes with water. Get medical attention if irritation persists.	
Skin contact	Remove contaminated shoes and clothing and cleanse affected area(s) thoroughly by washing with mild soap and water or a waterless hand cleaner. If irritation or redness develops and persists, seek medical attention.	
Inhalation	Move exposed persons to fresh air. Consult medical personnel if breathing issues occur.	
Ingestion	Do NOT induce vomiting. Consult a physician.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal protection	Avoid contact with the skin and the eyes. Eye protection or face shield should be used if material is used under conditions that increase the chances of splattering. Wash skin with soap and water if contact occurs. Launder soiled clothing. If spilled, take caution, as material can cause surfaces to become very slippery.	
For emergency responders	Clean up area with absorbent material and place in closed containers for disposal. Ventilate the area.	
Environmental precautions		
Environmental precautions	See Section 12 for additional Ecological Information.	
Methods and material for containment and cleaning up_		

Color

Methods for containment	Cover with earth, sand, or other non-c	ombustible material follow	ed with plastic sheets to
	minimize spreading or contact with rain.		
Methods for cleaning up	Excess liquid material can be collected using a scoop or shovel and stored for recycling o disposal. Prevent material from entering drains or waterways.		
	7. HANDLING AND STO	RAGE	
Precautions for safe handling			
Advice on safe handling	Avoid contact with skin, eyes and clothing. Eye protection or face shield should be used if material is used under conditions that increase the chances of splattering. If contact is made, wash skin with soap and water. Launder soiled clothing. Maximum handling temperature is 70 degrees C (158 F). It is recommended to pump or transfer material at ambient temperature.		
Conditions for safe storage, includi	ng any incompatibilities		
Storage Conditions	Keep away from heat and sources of ignition. Keep containers closed when not in use. Follow first aid measures if contact occurs, and spill procedures if spill occurs. For packaged material: Store in a cool dry area. For bulk material: store in cool dry area. Always follow local, state, and federal guidlines for storage of material for amount stored.		
Incompatible Products	Strong oxidizing agents.		
8. EX	POSURE CONTROLS/PERSON	IAL PROTECTION	
Control parameters			
Exposure guidelines	This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.		
Appropriate engineering controls			
Engineering Controls	Showers Eyewash stations Ventilation systems.		
Individual protection measures, suc	ch as personal protective equipment		
Eye/face Protection	If splashes are likely to occur, wear:. Goggles. Eye/face Protection.		
Skin and body protection	Long sleeved clothing. Protective gloves can be worn, if material comes in contact with skin wash with soap and water.		
Respiratory protection	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
